Notes:

Patient Care Technician Certificate State Licensure Disclosure

This document represents a good-faith effort to share requirements for licensure in other states. Additional requirements for licensure not outlined in this document may be required or required. Applicants may be asked to submit fingerprinting and criminal record background checks, answer questions about past criminal convictions, submit additional documentation, pay licensure, certification, or registration fees, submit a Social Security number, abide by codes of conduct, or meet additional requirements not outlined in this document.

Applicants from out of states and the US territories are advised to review the information in the table and confirm CNA/EKG and PCT technician registration, certification, and licensing requirements in their home states/territories before enrolling in this or any educational program, as state and territory licensing requirements and boards or agency responsibilities may have changed since the information in this document was last updated.
