The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Alaska requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
American Samoa		It is unknown whether PTC's Veterinary Technology program meets the educational requirements for employment through registration, certification, or licensure in American Samoa. Students from American Samoa are not eligible to enroll in the Veterinary Technology program until a determination on whether the program meets these requirements is made.
Arizona	Arizona State Veterinary Medical Examining Board Arizona does not require licensure for veterinary technicians.	PTC's Veterinary Technology program meets the requirements for voluntary certification in Arizona. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Arizona requires veterinary technicians applying for certification to have earned a passing score on the Veterinary Technician National Exam (VTNE).
Arkansas	Arkansas Department of Agriculture Veterinary Medical Examining Board	PTC's Veterinary Technology program meets the requirements for certification in Arkansas. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Arkansas requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become certified.

California	California Department of Consumer Affairs Veterinary Medical Board	<p>PTC's Veterinary Technology program meets the requirements for licensure in California. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. California requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) prior to applying for licensure.</p>
Colorado	Colorado Department of Regulatory Agencies, State Board of Veterinary Medicine	<p>PTC's Veterinary Technology program meets the requirements for registration in Colorado. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Colorado requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.</p>
Connecticut	Connecticut State Board for Veterinary Medicine Connecticut does not require veterinary technicians to be licensed.	<p>PTC's Veterinary Technology program meets the requirements for voluntary certification in Connecticut. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Connecticut has a voluntary credentialing process for veterinary technician applicants who have earned a passing score on the Veterinary Technician National Exam (VTNE).</p>
Delaware	Delaware Board of Veterinary Medicine	<p>PTC's Veterinary Technology program meets the requirements for licensure in Delaware. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Delaware requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.</p>
District of Columbia	District of Columbia Department of Health(Veterinarians Licensing) The District of Columbia does not license veterinary technicians.	<p>PTC's Veterinary Technology program meets the requirements for employment in the District of Columbia. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. The District of Columbia does not license veterinary technicians.</p>

<p>Florida</p>	<p>Florida Board of Veterinary Medicine</p>	<p>PTC's Veterinary Technology program meets the requirements for voluntary certification in Florida. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Florida has a voluntary credentialing process for veterinary technician applicants who have earned a passing score on the Veterinary Technician National Exam (VTNE) and the FVTA.</p>
<p>Georgia</p>	<p>Georgia Secretary of State</p>	<p>PTC's Veterinary Technology program meets the requirements for licensure in Georgia. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Georgia requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.</p>
<p>Guam</p>	<p>Guam Board of Allied Health Examiners</p>	<p>It is unknown whether PTC's Veterinary Technology program meets the educational requirements for employment through registration, certification, or licensure in Guam. Students from Guam are not eligible to enroll in the Veterinary Technology program until a determination on whether the program meets these requirements is made.</p>
<p>Hawaii</p>	<p>Hawaii Department of Commerce and Consumer Affairs (DCCA)</p>	<p>PTC's Veterinary Technology program meets the requirements for registration in Hawaii. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Hawaii requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.</p>
<p>Idaho</p>	<p>Idaho Board of Veterinary Medicine</p>	<p>PTC's Veterinary Technology program meets the requirements for certification in Idaho. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Idaho requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become certified.</p>

Illinois	<u>Illinois Department of Financial and Professional Regulation.</u>	PTC's Veterinary Technology program meets the requirements for licensure in Illinois. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Illinois requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).
Indiana	<u>Indiana Board of Veterinary Medicine</u>	PTC's Veterinary Technology program meets the requirements for registration in Indiana. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Indiana requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Iowa	<u>Iowa Board of Veterinary Medicine</u>	PTC's Veterinary Technology program meets the requirements for registration in Iowa. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Iowa requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Kansas	<u>Kansas Board of Veterinary Examiners</u>	PTC's Veterinary Technology program meets the requirements for registration in Kansas. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Kansas requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Kentucky	<u>Kentucky Board of Veterinary Examiners</u>	PTC's Veterinary Technology program meets the requirements for licensure in Kentucky. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Kentucky requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.

Louisiana	Louisiana Board of Veterinary Medicine	PTC's Veterinary Technology program meets the requirements for registration in Louisiana. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Louisiana requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Maine	Board of Veterinary Medicine	PTC's Veterinary Technology program meets the requirements for registration in Maine. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Maine requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Republic of the Marshall Islands		It is unknown whether PTC's Veterinary Technology program meets the educational requirements for employment through registration, certification, or licensure in the Republic of the Marshall Islands. Students from the Republic of the Marshall Islands are not eligible to enroll in the Veterinary Technology program until a determination on whether the program meets these requirements is made.
Maryland	Maryland Department of Agriculture	PTC's Veterinary Technology program meets the requirements for registration in Maryland. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Maryland requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Massachusetts	There is no state licensing board for veterinary technicians in Massachusetts. Massachusetts Veterinary Technician Association	PTC's Veterinary Technology program meets the requirements for voluntary certification in Massachusetts. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Massachusetts requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).

<p>Federated States of Micronesia</p>		<p>It is unknown whether PTC's Veterinary Technology program meets the educational requirements for employment through registration, certification, or licensure in the Federated States of Micronesia. Students from the Federated States of Micronesia are not be eligible to enroll in the Veterinary Technology program until a determination on whether the program meets these requirements is made.</p>
<p>Michigan</p>	<p>Licensing and Regulatory Affairs (LARA) Bureau of Professional Licensing</p>	<p>PTC's Veterinary Technology program meets the requirements for licensure in Michigan. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Michigan requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.</p>
<p>Minnesota</p>	<p>Minnesota Veterinary Medical Associations (MVMA)</p> <p>Veterinary Technicians are not currently licensed through the state of Minnesota.</p>	<p>PTC's Veterinary Technology program meets the requirements for voluntary certification in Minnesota. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Minnesota requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).</p>
<p>Mississippi</p>	<p>Mississippi Board of Veterinary Medicine</p>	<p>PTC's Veterinary Technology program meets the requirements for certification in Mississippi. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Mississippi requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).</p>
<p>Missouri</p>	<p>Missouri Division of Professional Registration</p>	<p>PTC's Veterinary Technology program meets the requirements for registration in Missouri. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Missouri requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.</p>
<p>Montana</p>	<p>Montana Board of Veterinary Medicine</p>	<p>PTC's Veterinary Technology program meets the requirements for licensure in Montana. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on</p>

		Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Montana requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
Nebraska	Nebraska Department of Health and Human Services Veterinary Medicine and Surgery	PTC's Veterinary Technology program meets the requirements for licensure in Nebraska. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Nebraska requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
Nevada	Nevada Board of Veterinary Medical Examiners	PTC's Veterinary Technology program meets the requirements for licensure in Nevada. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Nevada requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
New Hampshire	New Hampshire Veterinary Technician Association New Hampshire does not require licensure of veterinary technicians.	PTC's Veterinary Technology program meets the requirements for voluntary certification in New Hampshire. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. New Hampshire requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).
New Jersey	New Jersey Veterinary Technicians Association New Jersey does not require licensure of veterinary technicians.	PTC's Veterinary Technology program meets the requirements for voluntary certification in New Jersey. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. New Jersey requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).
New Mexico	New Mexico Board of Veterinary Medicine	PTC's Veterinary Technology program meets the requirements for registration in New Mexico. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities.

		Graduates earning a passing score on the VTNE become credentialed veterinary technicians. New Mexico requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
New York	New York State Education Department Office of the Professions	PTC's Veterinary Technology program meets the requirements for licensure in New York. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. New York requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
North Carolina	North Carolina Veterinary Medical Board North Carolina does not require licensure for veterinary technicians.	PTC's Veterinary Technology program meets the requirements for registration in North Carolina. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. North Carolina requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
North Dakota	North Dakota Board of Veterinary Medical Examiners	PTC's Veterinary Technology program meets the requirements for licensure in North Dakota. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. North Dakota requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
Commonwealth of the Northern Mariana Islands	CNMI Board of Professional Licensing The Commonwealth of the Northern Mariana Islands does not require licensure of veterinary technicians.	PTC's Veterinary Technology program meets the requirements for employment in the Commonwealth of the Northern Mariana Islands. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. The Northern Mariana Islands does not license veterinary technicians.
Ohio	The Ohio Veterinary Medical Licensing Board Ohio does not require the licensure of veterinary technicians.	PTC's Veterinary Technology program meets the requirements for registration in Ohio. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become

		<p>credentialed veterinary technicians. Ohio requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.</p>
Oklahoma	<p>Oklahoma Veterinary Board</p> <p>Oklahoma does not require the licensure of veterinary technicians.</p>	<p>PTC's Veterinary Technology program meets the requirements for registration in Oklahoma. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Oklahoma requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.</p>
Oregon	<p>Oregon Veterinary Medical Examining Board</p>	<p>PTC's Veterinary Technology program meets the requirements for certification in Oregon. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Oregon requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE). Applicants must pass the Oregon Juris Prudence Exam/Regional Disease Test.</p>
Republic of Palau		<p>It is unknown whether PTC's Veterinary Technology program meets the educational requirements for employment through registration, certification, or licensure in the Republic of Palau. Students from Palau are not eligible to enroll in the Veterinary Technology program until a determination on whether the program meets these requirements is made.</p>
Pennsylvania	<p>The State Board of Veterinary Medicine</p>	<p>PTC's Veterinary Technology program meets the requirements for certification in Pennsylvania. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Pennsylvania requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).</p>
Commonwealth of Puerto Rico	<p>The Commonwealth of Puerto Rico does not require licensure for veterinary technicians.</p>	<p>PTC's Veterinary Technology program meets the requirements for certification in the Commonwealth of Puerto Rico. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Puerto Rico does not require veterinary</p>

		technician applicants to earn a passing score on the Veterinary Technician National Exam (VTNE).
Rhode Island	<p>The Rhode Island Veterinary Technician Association</p> <p>Rhode Island does not require licensure for veterinary technicians.</p>	PTC's Veterinary Technology program meets the requirements for voluntary certification in Rhode Island. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Rhode Island requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).
South Carolina	<p>South Carolina Board of Veterinary Medical Examiners</p>	PTC's Veterinary Technology program meets the requirements for licensure in South Carolina. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. South Carolina requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed. Licensure is not required for employment as a veterinary technician in South Carolina.
South Dakota	<p>The South Dakota Board of Veterinary Medical Examiners</p> <p>South Dakota does not require licensure of veterinary technicians.</p>	PTC's Veterinary Technology program meets the requirements for registration in South Dakota. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. South Dakota requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become registered.
Tennessee	<p>The Tennessee Board of Veterinary Medical Examiners</p>	PTC's Veterinary Technology program meets the requirements for licensure in Tennessee. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Tennessee requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.
Texas	<p>Texas State Board of Veterinary Medical Examiners</p>	PTC's Veterinary Technology program meets the requirements for licensure in Texas. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become

		<p>credentialed veterinary technicians. Texas requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.</p>
Utah	<p>Utah Veterinary Physician Licensing Board</p> <p>Utah does not require licensure of Veterinary Technicians.</p>	<p>PTC's Veterinary Technology program meets the requirements for certification in Utah. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Utah requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).</p>
Vermont	<p>Vermont Veterinary Technician Association (VETA)</p> <p>Vermont does not require licensure for veterinary technicians.</p>	<p>PTC's Veterinary Technology program meets the requirements for voluntary certification in Vermont. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Vermont requires veterinary technician applicants earn a passing score on the Veterinary Technician National Exam (VTNE).</p>
Virgin Islands	<p>Department of Health Licensure Boards</p>	<p>PTC's Veterinary Technology program meets the requirements for licensure in the Virgin Islands. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. The Virgin Islands requires veterinary technician applicants to have earned a score of 75% or higher on the Veterinary Technician National Exam (VTNE) to become licensed.</p>
Virginia	<p>Virginia Department of Health Professions, Board of Veterinary Medicine</p>	<p>PTC's Veterinary Technology program meets the requirements for licensure in Virginia. The Veterinary Technician program is accredited by the American Veterinary Medical Association Committee on Veterinary Technician Education and Activities. Graduates earning a passing score on the VTNE become credentialed veterinary technicians. Virginia requires veterinary technician applicants to have earned a passing score on the Veterinary Technician National Exam (VTNE) to become licensed.</p>

Notes:

This document represents a good-faith effort to share requirements for licensure in other states. Additional requirements for licensure not outlined in this document may be required or required. Applicants may be asked to submit fingerprinting and criminal record background checks, answer questions about past criminal convictions, submit additional documentation, pay licensure, certification, or registration fees, submit a Social Security number, abide by codes of conduct, or meet additional requirements not outlined in this document.

Applicants from out of states and the US territories are advised to review the information in the table and confirm Veterinary Technician registration, certification, and licensing requirements in their home states/territories before enrolling in this or any educational program, as state and territory licensing requirements and boards or agency responsibilities may have changed since the information in this document was last updated.
